Summary of Course Content  
IRSC Transportation of Radioactive Materials

This course is an overview of US DOT 49 CFR 172, 173 and IATA regulatory requirements related to the shipment of radioactive materials. Content includes:

- Requirements for training for individuals offering packages for transport
- What is considered to be hazardous material
- Classes, Divisions, and packing groups
- Labels, marks , and placards
- Quantities and exemptions
- Shipping papers
- Reading the hazardous materials table
- Package Types
- Transport Index Surveying Requirements
- QA Requirements
- Emergencies and notifications
- Security Requirements

The course and quizzes can be completed in 1-2 hours, depending upon the trainee's familiarity with the subject matter.
